

# Lösung: Welche Zahl passt in welche Gleichung?

Beispiel:  $28 - ?? = 22$  Lösung **6**

The diagram shows 12 equations and 12 numbers. Lines connect the numbers to the equations they solve:

- 6 (red) connects to  $28 - = 22$
- 12 (blue) connects to  $38 - 12 + = 44$
- 15 (red) connects to  $78 - = 63$
- 24 (green) connects to  $16 + 23 + = 53$
- 32 (orange) connects to  $11 + = 43$
- 35 (blue) connects to  $14 + = 38$
- 36 (brown) connects to  $21 + = 57$
- 78 (black) connects to  $78 - = 63$
- 78 (black) connects to  $78 - = 63$
- 26 (blue) connects to  $7 + = 33$
